

SECURITY KWIK-LOCS

Rize Security Kwik-Loc™ cable locks can be used as a fast and reliable way to suspend fluorescent lighting, HID's, sound systems, cable trays, signage and more.

Security Kwik Locs, like standard Kwik Locs, are to be used on static load applications only. However, Security Kwik-Locs offer more reliability in instances where your static load may become dynamic by flying objects, unexpected movement or striking. The locking bolts on the Security Kwik-Loc hold the inside locking wedge in place and disable the release pin feature until the locking bolt is manually loosened.

Product Range					
Item #	Code	Typical Applications	Wire Rope Diameter	Safe Working Load at 5:1 Safety Factor	Qty
