

TRACK HANGER KIT

Track lighting is a great way to light a space. You can place a light anywhere on the track, so you can change positions for optimum lighting. You need just one power source rather than multiple sources and do not have to punch through a ceiling. It works well and can be assembled to fit most any space. Simply use Rize Looped Cable to suspend the lighting to your desired height. With Rize Kwik-Grips, installation is a breeze.

Includes Looped Cable and Side Exit Kwik-Grip. Working Load limit 75 lbs.
