

Suspension systems typically use threaded rod with washers and nuts to construct a support structure. Sizing, cutting and assembling the rods to the complementary parts and fastening them to an anchor point can be very time consuming.

The Zip-Clip cable lock combined with cable is a more efficient method. The Zip-Clip has a spring loaded pawl which allows entry and passage of cable through the cable lock. Once engaged by the pawl, the cable is gripped with increasing pressure as the suspended load is increased. To ease adjustment, each Zip-Clip cable lock has an integrated release to disengage the gripping pawl.

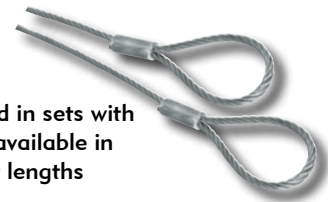

"T" shaped release

Zip-Clips are suitable for use with single or multi-tiered trapeze systems and in applications supporting such items as cable trays, baskets, water and gas pipes, and chilled beams.

- A work load limit of 25-220 lbs (12-100 kg)
- Sold in sets with looped cable
- Built in 5:1 safety factor
- Fits inside strut

Zip-Clips are sold in sets with looped cable, available in four pre-cut lengths

Ordering Information

Item #	Code	Description	Quantity
30331	ZCWR05	Zip-Clip Cable Lock with 5 ft Looped Wire Rope	10 bags of 10 sets
30332	ZCWR10	Zip-Clip Cable Lock with 10 ft Looped Wire Rope	10 bags of 10 sets
30333	ZCWR15	Zip-Clip Cable Lock with 15 ft Looped Wire Rope	10 bags of 10 sets
30334	ZCWR25	Zip-Clip Cable Lock with 25 ft Looped Wire Rope	10 bags of 5 sets

To insure the safety and integrity of the suspension system use only Rize cable.

Zip-Clip is also available with the Kwik-Stud

Item #	Code	Description	Inner Pack Qty
30256	KSA3805ZC	Kwik-Stud 3/8 Threaded Bolt x 5ft Zip-Clip Cable Assembly	10/bag 10bg/bx
30257	KSA3810ZC	Kwik-Stud 3/8 Threaded Bolt x 10ft Zip-Clip Cable Assembly	10/bag 10bg/bx
30258	KSA3815ZC	Kwik-Stud 3/8 Threaded Bolt x 15ft Zip-Clip Cable Assembly	10/bag 10bg/bx
30259	KSA3825ZC	Kwik-Stud 3/8 Threaded Bolt x 25ft Zip-Clip Cable Assembly	5/bag 10bg/bx

All Kwik-Studs include drop-in and nut.

3/8 Threaded Bolt Kwik-Stud
